

EpizymeNOW Patient & Product Support

EpizymeNOW Patient & Product Support can help your patients understand their insurance coverage and identify any financial or product support that may be available to them. Below is a list of support programs for which they may be eligible:

Quick Start Program:

Patients may be eligible to receive medication right away if they:

- Experience a delay in the authorization of prescription drug coverage greater than five business days and
- It is determined there is an immediate medical need to start treatment

Bridge Supply Program:

Patients may be eligible to receive a limited supply of free medication if they experience an unexpected change or disruption of prescription drug coverage or supply (e.g., insurance provider requires a new or updated prior authorization or a change or loss of insurance).

Patient Assistance Program (PAP):

Your patients may be eligible to receive free medication if they are:

- Uninsured
- Underinsured (based on program eligibility criteria)
- Enrolled in the Medicare Part D benefit and have coverage for TAZVERIK™ (tazemetostat), but are currently experiencing financial hardship (based on Epizyme's review of appropriate supporting documentation)

Co-Pay Assistance Program:

For patients with commercial (private) health insurance, eligible to receive co-payment assistance to help reduce their out-of-pocket costs for Epizyme medications.

This offer is not valid for cash-paying patients or patients currently enrolled in Medicare, Medicaid, or any other federal or state healthcare program. Limitations apply. Void where prohibited.
