2021-2022 MONTHLY MEETINGS

POS

September 9, 2021 (Thursday)

Norah S. Lincoff, MD

**Professor, Department of Neurology
Jacobs School of Medicine & Biomedical Sciences
University at Buffalo, Buffalo, NY**

Dr. Lincoff is a neuro-ophthalmologist with a primary clinical interest in optic neuropathy and vasculitis. She sees a full range of neuro-ophthalmologic conditions, but specializes in adult autoimmune optic neuropathy syndromes, diplopia, headache, and multiple sclerosis (MS).

Her main research interests include preventative treatment trials for autoimmune optic neuropathies and neuroprotection. Dr. Lincoff presents annually at national and international conferences regarding MS and the use of ocular coherence tomography and imaging specific to her field. She is also involved in the “Hopeful Ways Nicaragua Eye Care Mission Project,” an annual medical mission to Nicaragua to prevent blindness. Working together with a group of medical professionals, local interpreters and Peace Corps volunteers, the project provides free vision care to over 2,600 patients a year.

Thank you to Pamela Rath, MD, President-Elect for inviting Dr. Lincoff.

October 5, 2021 (Tuesday)

Anup K. Khatana, MD

Medical Director, Cincinnati Eye Institute Cincinnati, OH

Dr. Khatana joined Cincinnati Eye Institute (CEI) as a cataract and glaucoma specialist in 2000 and was Director of the Glaucoma Service and fellowship from 2012 – 2020. He became Medical Director of the Cincinnati Eye Institute in 2019. He is a volunteer Clinical Assistant Professor at the University of Cincinnati College of Medicine, Department of Ophthalmology, and was voted teacher of the year by his residents here in 2011. He has been selected by his peers to Best Doctors in America since 2001.

Dr. Khatana uses the latest cataract surgical technology, including the use of toric and multifocal intraocular lenses and specializes in the management of various complicated and advanced forms of glaucoma, as well as all the newer minimally invasive glaucoma surgeries. As an investigator in various clinical trials, Dr. Khatana is able to provide his patients access to new drugs and technologies at an earlier stage.

Thank you to Ian Conner, MD, PhD for inviting Dr. Khatana.

December 2, 2021 (Thursday)

Edwin H. Ryan, MD

Vitreoretinal Surgery, PLLC Associate Clinical Professor Ophthalmology, University of Minnesota Department of Ophthalmology

Dr. Ryan was awarded his Doctor of Medicine degree from the University of Minnesota. He completed a residency in Ophthalmology at Northwestern University and a fellowship in Diseases and Surgery of the Retina and Vitreous at Washington University in St. Louis.

Dr. Ryan directed the Retina Service at the University of Minnesota Department of Ophthalmology from 1989 to 1992 and is currently an Associate Clinical Professor of Ophthalmology.

Dr. Ryan joined VitreoRetinal Surgery in 1996.

Thank you to Thierry Verstraeten, MD for inviting Dr. Ryan.

January 6, 2022

Gregory S.H. Ogawa, MD

**Eye Associates of New Mexico
Albuquerque, NM**

Dr. Gregory Ogawa is an ophthalmologist at Eye Associates of New Mexico, specializing in problems involving intraocular lenses, irises, cataracts, and corneas. Dr. Ogawa manages complex patient cases, often for the underserved, routinely treating monocular patients and infants and children with cataracts as well as performing ocular reconstructive procedures for eyes that have experienced a range of injuries. At Eye Associates of New Mexico, he serves as the medical administrative officer in addition to his patient care activities.

Dr. Ogawa has designed multiple surgical instruments with the goal of making eye surgery safer and more effective. He has also developed, presented, and published new surgical techniques in the area of iris reconstruction and suture fixation of intraocular lens implants. He helped advance and disseminate new surgeries such as endothelial keratoplasty—implantation of miniature telescopes for patients with macular degeneration—and soon, the implantation of custom artificial irises.

A beloved educator, Dr. Ogawa travels nationally to major eye surgery meetings such as the American Academy of Ophthalmology, the American Society for Cataract and Refractive Surgery, and The Cornea Society where he teaches eye surgery in labs and didactic sessions to residents, fellows, and experienced practitioners.

Thank you to Zachary Koretz, MD for inviting Dr. Ogawa
